

## TE DOCUMENT BAG Data Sheet

Our Acme **TE** security bags are made from co-extruded polythene with an easy to use closure seal that offers tamper evident security against ALL known methods of attack. The bag can be either transparent or opaque and once it is sealed, any unauthorized attempts to break the seal will cause the "OPEN / VOID" hidden message to appear. The tape provides **clear permanent evidence of tampering** from attempts to open the seal with solvent, extremes of heat and cold, mechanical peeling or cutting and resealing.

### Technical Data
